Easter

Again we approach the Eastertide with and reverence. It is far more than a seasonal holiday, a religious observance attached to one church. It is the interpretation of a spirit which goes to bed rock in our lives. Easter conveys eternal truths to those who wish to understand.

Easter is associated with the resurrection of Jesus but it also points to His suffering upon the cross and as thousands of homes are sorrowing because of the war it is fitting that the Cross, be mentioned. It appears that it is God's plan to strengthen his children by allowing them to pass through difficulties. Those who have marveled at the glorious sunset should remember that if it were for the clouds the beauty of the sun's rays would not be witnessed. So sometimes a clouds or burdens are used in our individual and national life by The Creator to work His way of eternal life.

May we not be too busy with our personal ambitions to reflect upon man, blessings which we possess and of the Heavenly promises which are ours through Christ's mission on earth.

Federal Issues

As we urged our readers to exercise their franchise in the selection of a provincial Government we now ask that the same duty be performed in the in the Federal campaign March 26th.

Issues in the Federal campaign are clear despite the smoke screens and noise of the big guns firing. It is a question of our prosecution of the war. If you believe that the present administration acted in the interests of all sections of Canada just previous to the conflict and have carried out the management of the many difficult problems attending upon the entering of the war then vote for the Liberal candidate. If you are not satisfied then vote for the alternative opposition, Social Credit or National Government.

Shall I Vote for KING or MANION?

There is only one decision to be made by the Canadian people on March 26th . . . It is this:

Shall our country's war effort be handed over to unknown, unnamed politicians . . . to a makeshift cabinet with Dr. Manion as the self-appointed leader? Or . . .

Shall our country's war effort be continued vigorously and faithfully by the known and proven administration of Mackenzie King?

That is the question YOU must answer.

Up a Blind Alley?—or—Out in the Open!

It is time for plain speaking. Dr. Manion's pretence of offering "national" government is sheer political deceit. Because: even if he were elected to office, Dr. Manion could not organize or lead a truly national government. The parliamentary group which might follow him would fail to represent all Canada. It would not represent the people of the national Liberal party. It would not represent the people of the C.C.F. party. It would not represent the people of the historic Conservative party which Dr. Manion has now scuttled.

Do not be deceived!

Dr. Manion cannot give you National Government.

The best he might give you would be government by unknown followers. He invites you to follow him up a blind alley—to vote for a government of his own imagination—answerable to some undisclosed political group.

Mackenzie King offers you something entirely in the open . . . the most truly National government Canada has ever known. His parliamentary followers represent the people of every province in Canada—every section of our country—every economic, social and racial group. There is not an area of this country, not a single classification of our people . . . without proper representation in the Mackenzie King following.

Mackenzie King's cabinet ministers are well known to you. They are broadly experienced men, eager and able to continue the sort of administration which brought progress to Canada in times of peace and national pride to Canadians since the outbreak of war.

The Mackenzie King administration is answerable to the people of Canada—to no one else.

The Responsibility is Now Yours

Canada is facing the greatest crisis in her history. It is YOUR responsibility to say how she is to deal with this crisis. Therefore; when you go to the polls on March 26th you should consider only what is best for Canada—what is best for the Empire and our allies—what is the sure, direct road to Victory and Peace.

A LODGED CROP AND THE CAUSE

The problem of how to avoid heavy losses resulting from the lodging of grain and corn crops is one of major interest at this season of year when farmers are discussing their new crop programme.

Always a serious problem, it seems to be growing worse year to year. Farms blessed with more than the average amount of stable manure or soils high in organic matter suffer the most severe losses from lodging. Old timers have a saying that "lodged crops never increase the mortgage," the inference being that the soils on the farms where crops lodge are exceptionally rich in fertility. Modern farmers are beginning to question this theory, and their doubts are supported by the findings of science, says G. R. Snyder, soil chemist.

Soil tests show that the soils of fields on which crops are very high in nitrogen, the leaf and stem growth producing element but low to very low in the mineral plant foods that give strength to straw and promote the development of grain and the timely maturing of the crop.

The reason for this can be easily appreciated when one considers that manure is much richer in nitrogen than it is in phosphoric acid, one of the most important of the major essential mineral plant foods.
